## Five reasons Sage Intacct is built for your organization

**Built for finance**—Choose a partner that spends every R&D dollar on providing value to the modern financial professional.

**Built for growth**—With more automation, insight, and flexibility, you can increase efficiency and drive performance.

**Built for cloud**—Give your team the advantage of a true, modern cloud Financial solution. Sage Intacct is easy to use, works anywhere, and connects easily with other best-in-class solutions.

**Built for public companies**—Go public with the right controls and accounting and reporting procedures. Then grow with a flexible, scalable, automated system providing real-time insights.

**Built for success**—Expect great results with Sage Intacct. On average, our customers achieve a 250% ROI and a payback period of less than six months.

Your best choice—but  
don't take our word for it

“We can now slice and dice our expenses and revenues by location, by department, by vendor or by customer, and our managers can view a number of different reports that help them make better operational decisions for our future.”

## Automation lets you do more with less—and do it more effectively

What makes Sage Intacct the best cloud Financial software? With automated workflows that support multiple entities, locations, and currencies, Sage Intacct makes your core financial operations faster and more efficient. It gives you the freedom to adapt rapidly at the precise moment your actions will be the most impactful. And it helps finance staff easily manage and reconfigure multi-step workflows and data points—without calling IT for help.

## Increase efficiency, reduce risk, and see your whole financial picture

Sage Intacct is the only midmarket cloud Financial solution that shows financial and operational metrics by any dimension that matters to you. Go to one place to get a full view of business performance—from any angle, in any configuration that's helpful to your strategic decision-making.

## Industrial-strength takes on new meaning

Your organization is unique. Don't settle for a "one-size-fits-all" financial application. Sage Intacct is a highly flexible, powerful cloud Financial solution that adapts to your workflows and reporting requirements. And it connects easily with other best-in-class, industry-specific solutions to give you a truly tailored solution.

“Sage Intacct has supported Mozilla as we've expanded to over 20 countries internationally, and worked seamlessly with all our world-class cloud-based applications. As a result, we can focus on being true strategic partners to our global product leaders and leverage Sage Intacct's transparent, web-based financial information for key insights like our new product line profitability financial management reporting.”

—Jim Cook, CFO, Mozilla
